INDEX TO VOL. XV (B)

AUTHORS' INDEX

Abraham, A. .. *See* Kumar and Abraham.

Ayer, A. Ananthanarayana — The external morphology of the brain of *semnopithecus entellus* (a comparative study), 43.

Ayyangar, G. N. Rangaswami, Ayyar, M. A. Sankara, Narayanan, T. R., and Nambiar, A. Kunhi Koran — The grain sorghums of the *durra* group, 133.

Ayyar, M. A. Sankara .. *See* Ayyangar and others.

Banerji, M. L. .. *See* Chaudhuri and Banerji.

Bhalerao, G. D. .. The genus *cephalogonimus* in India and Burma, 178.

Chaudhuri, H. .. Indian water moulds—V, 225.

Chaudhuri, H., and Banerji, M. L. — Indian water moulds—IV, 216.

Chiplonker, G. W. .. Age and affinities of the bagh fauna, 148.

Damodaran, M., and Krishnaswamy, T. K. — Enzymic proteolysis, Part V, 285.

Hamid, Abdul .. Indian water moulds—III, 206.

Iyengar, N. K. .. Trypsin-kinase in blood, 106.
Anti-tryptic components of blood, 112.
Prothrombin and plasma trypsin, 123.

Janjua, Nazeer Ahmed .. On the biology of red spider mite (*tetranychus telarius* Linn.) in Baluchistan, 256.

Kantiengar, N. L. .. *See* Srikantiah and Kantiengar.

Khan, Abdul Wahid .. *See* Rahman and Khan.

Krishnaswamy, T. K. .. *See* Damodaran and Krishnaswamy.

Kumar, L. S. S., and Abraham, A. — Cytological studies in Indian parasitic plants, II, 253.

Lal, M. B. .. The egg-capsule of the millipede, *thyroglutus malayus* Attems (syn. *thyropygus malayus* Carl.), 58.

Mahendra, B. C. .. Contributions to the bionomics, anatomy, reproduction and development of the Indian house-gecko, *hemidactylus flaviviridis* Rüppel, Part III, 231.

Maheshwari, P. .. The embryo-sac of *euphorbia heterophylla* L.—A re-investigation, 158.

Maheshwari, P., and Singh, Balwant — On the internal bundles in the stem of *rumex patientia* L., 153.

Majumdar, Girija P. .. The origin of siphonostele in three species of *selaginella* spr., 172.

Nambiar, A. Kunhi Koran — *See* Ayyangar and others.

Narayanan, T. R. .. *See* Ayyangar and others.

Paul, M. D. .. Studies on the growth and breeding of certain sedentary organisms in the Madras harbour, 1.

Raghavan, T. S., and Srinivasan, A. R. — Cytological studies in *datura*, I, 61.

Raghavan, T. S., and Srinivasan, V. K. — A contribution to the life-history of *vahlia viscosa*, Roxb., and *vahlia oldenlandioides* Roxb. 83.

Rahman, Khan A., and Khan, Abdul Wahid — Bionomics and control of *Aeolesthes holosericea* F. (Cerambycidæ : Coleoptera), 181.

A study of the life-history and control of *batocera horsfieldi* Hope (Lamiidæ : coleoptera)—a borer pest of walnut tree in the Punjab, 202.

Ramakrishnan, T. S. .. A leaf spot disease of zingiber officinale by *phyllosticta zingiberi* n.sp., 167.

Raman, C. V. .. New concepts of the solid state, 75.

Seshachar, B. R. .. Stages in the spermatogenesis of *siphonops annulatus* Mikan. and *dermophis gregorii* Blgr. (amphibia : apoda), 263.

Origin of intralocular oocytes in male apoda, 278.

Singh, Balwant .. *See* Maheshwari and Singh.

Srikantiah, C., and Kantiengar, N. L. — Analysis of raspuri and badami varieties of mango (*mangifera indica*) grown in Mysore, 280.

Srinivasan, A. R. .. *See* Raghavan and Srinivasan.

Srinivasan, V. K. .. *See* Raghavan and Srinivasan.

Swamy, B. G. L. .. Female gametophyte and embryogeny in *cymbidium bicolor* Lindl., 194.

Thirumalachar, M. J. .. *Phragmotelium mysorensis*, a new rust on Indian raspberry, 186.

TITLE INDEX

Aeolesthes holosericea F. (Cerambycidæ : Coleoptera), bionomics and control (Rahman and Khan), 181.

Bagh fauna, age and affinities (Chiplonker), 148.

Batocera horsfieldi Hope (Lamiidæ: Coleoptera), a study of the life-history and control (Rahman and Khan), 202.

Blood, anti-tryptic components (Iyengar), 112.

Blood, trypsin-kinase (Iyengar), 106.

Cephalogonimus, the genus, in India and Burma (Bhalerao), 178.

Cymbidium bicolor Lindl., female gametophyte and embryogeny (Swamy), 194.

Datura, cytogenetical studies, I (Raghavan and Srinivasan), 61.

Durra group, the grain sorghums (Ayyangar and others), 133.

Enzymic proteolysis, V (Damodaran and Krishnaswamy), 285.

Euphorbia heterophylla L., the embryo-sac—a reinvestigation (Maheshwari), 158.

Hemidactylus flaviviridis Rüppel, Indian house-gecko, contributions to the binomics, anatomy, reproduction and development, III (Mahendra), 231.

Mango (*mangifera indica*) grown in Mysore, raspuri and badami varieties, analysis (Srikantia and Kantiengar), 280.

Oocytes, intralocular, origin, in male apoda (Seshachar), 278.

Organisms, certain sedentary, in the Madras harbour, growth and breeding, studies (Paul), 1.

Parasitic plants, Indian, cytological studies, II (Kumar and Abraham), 253.

Phragmotelium mysorensis, a new rust on Indian raspberry (Thirumalachar), 186.

Phyllosticta zingiberi n.sp., a leaf spot disease of zingiber officinale caused by (Ramakrishnan), 167.

Prothrombin and plasma trypsin (Iyengar), 123.

Rumex patientia L., stem of, on the internal bundles (Maheshwari and Singh), 153.

Selaginella spr., three species of, the origin of siphonostele in (Majumdar), 172.

Semnopithecus entellus, brain, the external morphology (a comparative study) (Ayer), 43.

Siphonops annulatus Mikan. and *dermophis gregorii* Blgr. (amphibia : apoda), stages in the spermatogenesis (Seshachar), 263.

Solid state, new concepts (Raman), 75.

(*Tetranychus telarius* Linn.), red spider mite, in Baluchistan, on the biology (Janjua), 256.

Thyroglutus malayus Attems (syn. *thyropygus malayus* Carl.) millipede, the egg-capsule (Lal), 58.

Vahlia viscosa Roxb. and *vahlia oldenlandioides* Roxb., a contribution to the life-history (Raghavan and Srinivasan), 83.

Water moulds, Indian, III (Abdul Hamid), 206 ; IV (Chaudhuri and Banerjee), 216 ; V (Chaudhuri), 225.
